Activity 2: MQL Query Practice
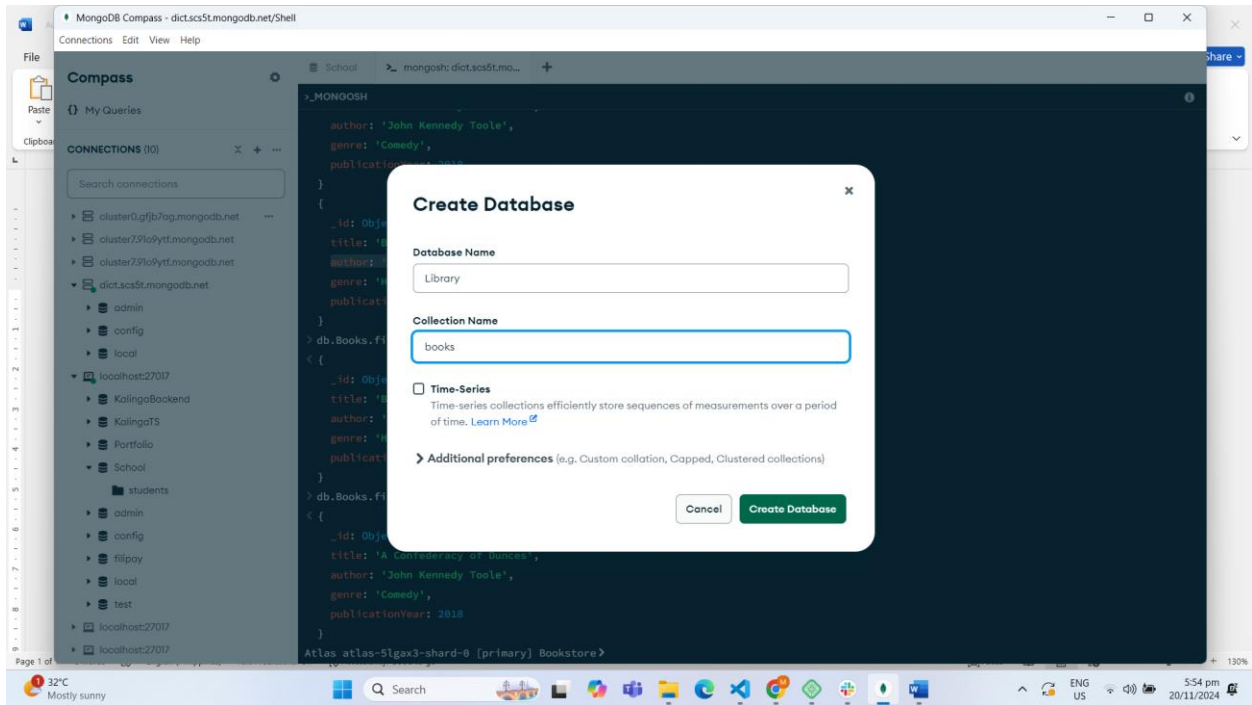

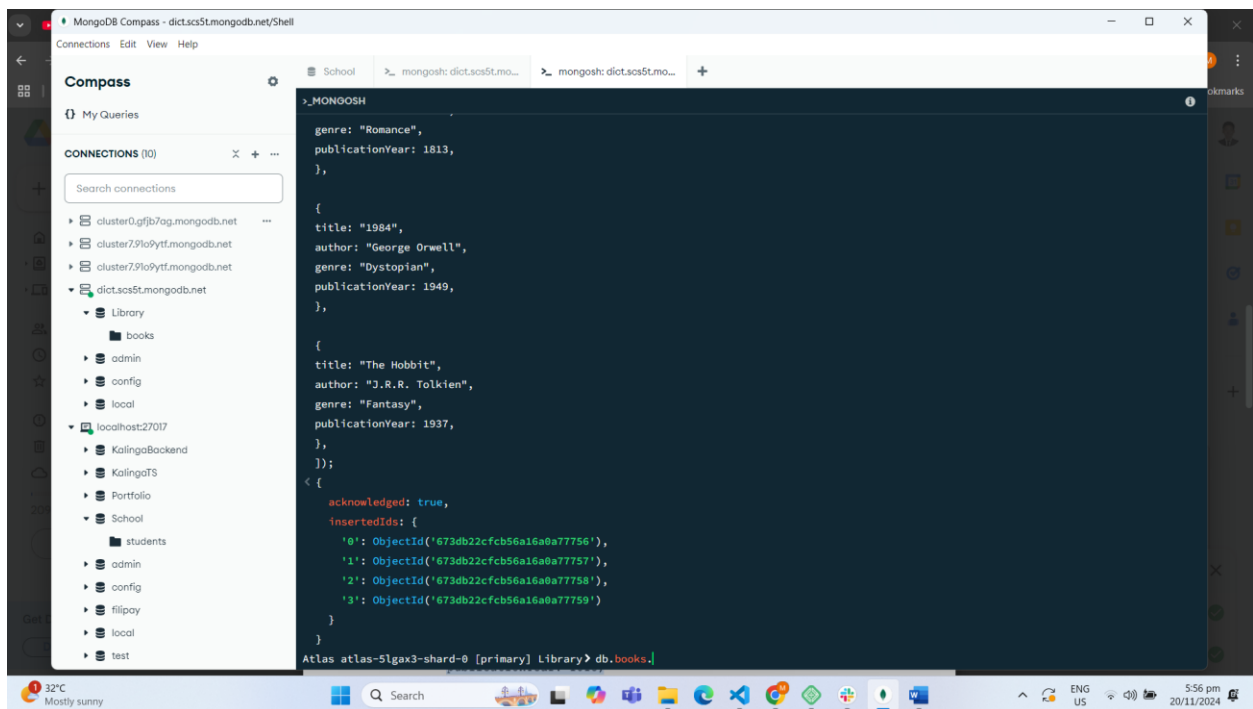

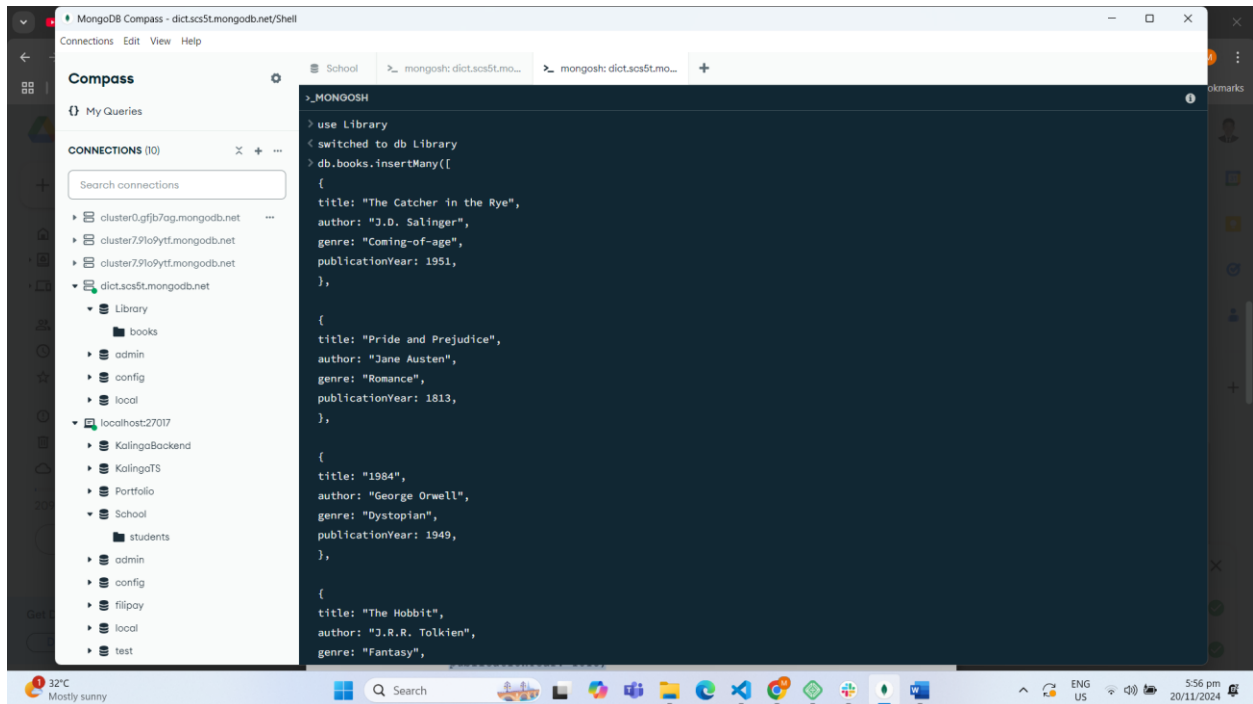

Connect to your MongoDB Atlas cluster using MongoDB Compass.

Choose an existing database and collection to work with or create a new database and
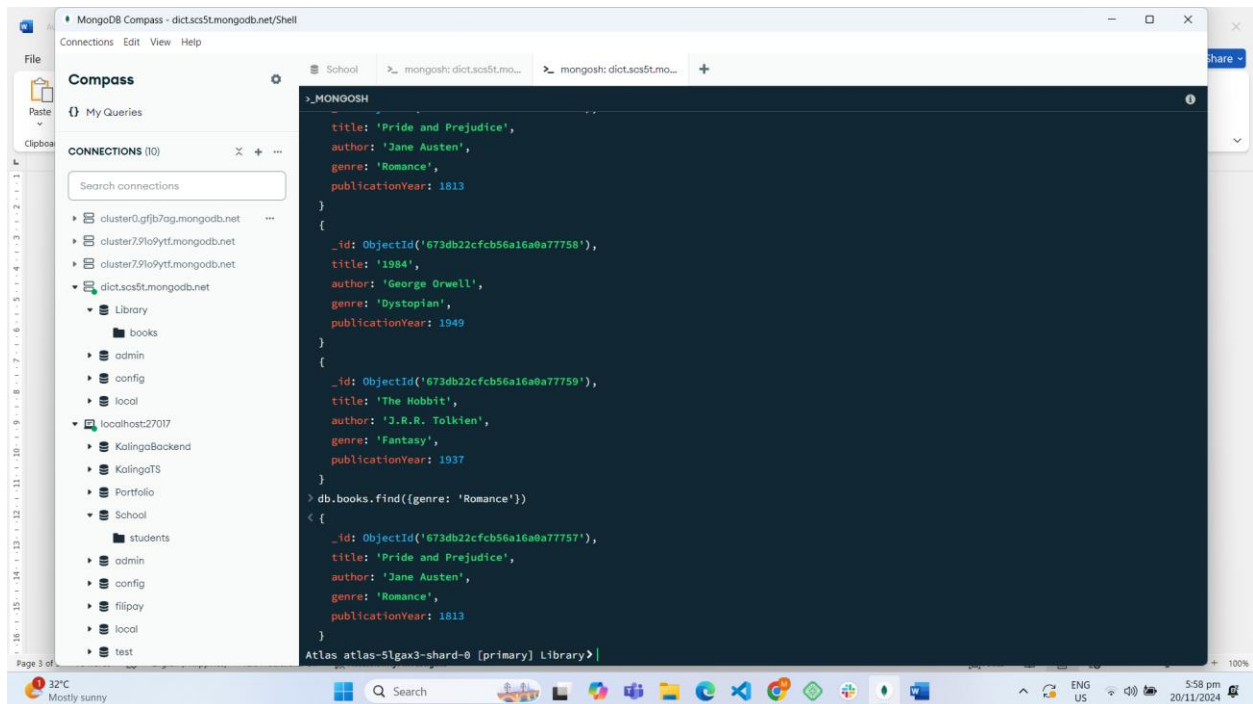

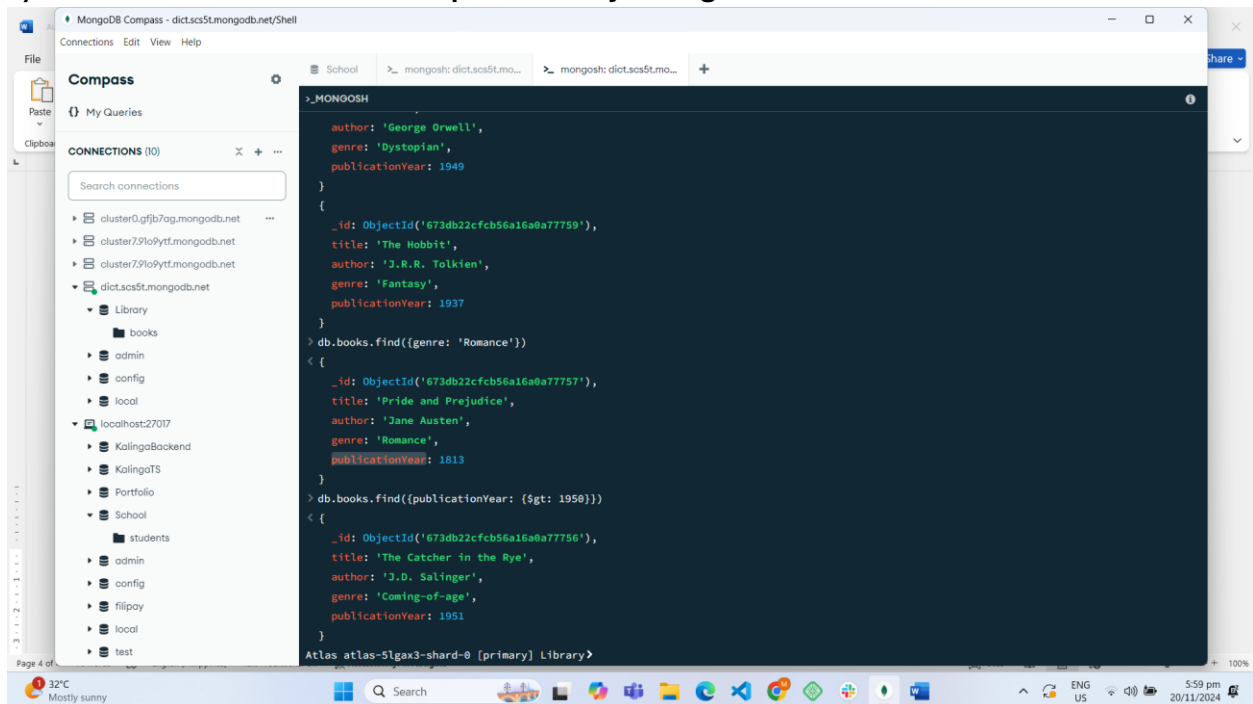

collection.

Inserted Books

a) Retrieve all documents from the collection.

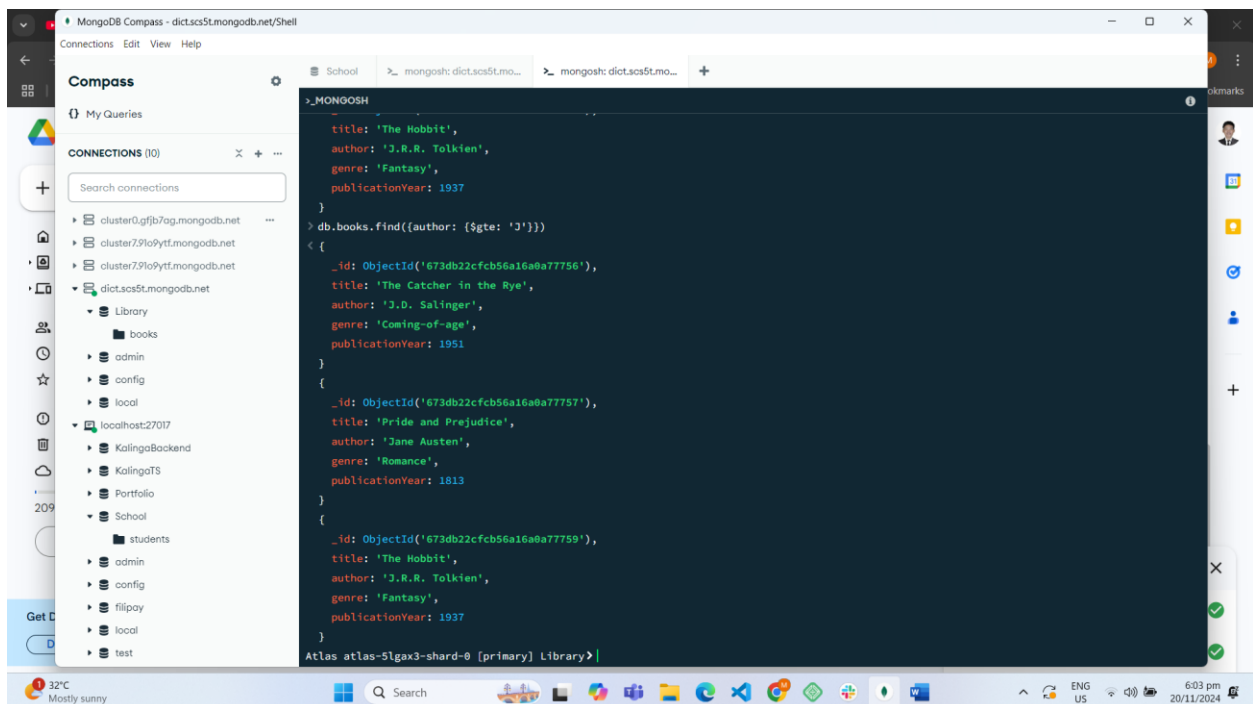

b) Retrieve documents where the genre is "Romance".

**c) Retrieve documents where the publication year is greater than 1950.**

d) Retrieve documents where the author's name starts with "J".

e) Retrieve documents where the title contains the word "the".
